

Declaration of conformity — Article: Plasticised film

VINILOS DEL ESTE Manufacturer of plasticised film

This declaration covers **exclusively** the requirements of Regulation (EU) 2025/40 on packaging and packaging waste (“PPWR”) whose application date is on or before **12 August 2026**. It does not include any requirement, criterion or deadline after that date ([art. 71, Regulation \(EU\) 2025/40](#)).

Note on scope: whether the article converted by each client ultimately qualifies as “packaging” depends on its specific intended use ([art. 3.1.1 and Annex I](#); [Commission guidance, point 1](#)). This declaration covers the film as a packaging material; it is for each client to confirm whether the final article it converts qualifies as packaging and, if so, to issue its own declaration as manufacturer of the finished packaging.

Vinilos del Este supplies this film as **raw material/packaging material**. In this relationship, Vinilos del Este acts as a **supplier of packaging materials** within the meaning of [article 16 of Regulation \(EU\) 2025/40](#), and not as the “packaging manufacturer” for the purposes of article 39 (a role held by the client, when the converted article qualifies as packaging).

1. **Identification of the article:** Plasticised film, Reference: ABH*, CR*, EXP*, FMH*, M*, SCH*, OP*, 2V*, 32*, U*, V*, X*
2. **Name and address of the supplier:** Vinilos del Este, Ctra Benetusser 72, 46200, Paiporta, Valencia.
3. **Declaration under sole responsibility:** Vinilos del Este declares, under its sole responsibility, that the article described complies with the following requirements of Regulation (EU) 2025/40 applicable from its date of application (12/08/2026).
4. **Requirements covered by this declaration:**

Requirement	Limit/obligation	Legal basis	Application date
Substances of concern	The material minimises the presence and concentration of substances that generate negative impacts on reuse or recycling	Art. 5.1	12/08/2026
Heavy metals	Sum of lead + cadmium + mercury + hexavalent chromium ≤ 100 mg/kg in the material or its components	Art. 5.4	12/08/2026

The PFAS limit under [art. 5.5](#) does not apply to this article, as it is not intended for food contact.

5. **Supporting documentation:** This declaration is based on the declarations received from Vinilos del Este’s raw material suppliers, confirming the absence of PFAS and compliance with the heavy metal limits of article 5.4 in the materials supplied, pursuant to the information obligation set out in [article 16 of Regulation \(EU\) 2025/40](#). This documentation is kept available to the competent authorities and information passed on to the client converting the final article, so that, if that article qualifies as packaging, the client can complete its own technical file ([Annex VII](#)) and its EU declaration of conformity ([art. 39](#)).

6. **Scope:** This declaration does not replace the EU declaration of conformity for the final packaging (if applicable), which must be issued by the converting client in its capacity as manufacturer, and it does not include any requirement with an application date after 12/08/2026 (e.g. detailed recyclability, recycled content, minimisation of volume/weight, labelling, empty space ratio, or format restrictions).

Signed on behalf of Vinilos del Este:

Place and date: Paiporta 16.07.26
